

How to Listen to Harmony's Podcasts

Every week we publish two podcasts from our worship service: The first is the entire service including the worship time as well as the sermon. The second one is the sermon only. The entire service is available for about 2 months before it's removed. The sermon podcasts are kept permanently.

There are quite a few options to be able to listen to our podcasts:

- 1) From our website: <http://www.harmonychurchny.com/sermons>
- 2) From Sermon.net <http://harmonychurchny.sermon.net/main/main>
- 3) From an iPhone you can aim your camera at the following QR code and follow the link that your phone offers you. (This works on some Android phones too)

You can install the Sermon.net app from the app store for your iPhone or Android device. Once installed, search for "Hawco" as it turns out there are many "Harmony" churches and that search gets complicated. (There is apparently only one Hawco.....)

- 4) If you have a favorite podcast tool that you use, you can put this link into it:
<http://harmonychurchny.sermoncampus.info/rss/main>

With any podcast tool, I recommend that you subscribe to the podcast you're wishing to have and be sure to set the options so that it will only download the podcast when connected to WiFi to avoid impacting your data plan.
